Adding value to careers

All information contained in this report has been prepared and is a copyright of PexiScore.com based on information and responses provided by the candidate. Consequently PexiScore does not accept any responsibility on the accuracy and authenticity of the information provided by the candidate. The PexiScore CareerGraph is valid upto six months or until the candidate initiates any changes in the information provided till initiation of this report. The report does not reflect the individual views of PexiScore. This report is governed by the terms and conditions of PexiScore.com

INTRODUCTION

This Report helps to summarise the career aspirations alongwith the learnings and choices that might appear before you for the forthcoming future based on your QUALIFICATIONS, COMPETENCIES AND APTITUDE. The is to be a guide while allowing you to understand your strengths and weaknesses to better cultivate yourself. We advice that the report be read carefully with a few 'own action plans' that you might want to draw up at the end of the report and follow it up judiciously for your own success.

The report does not cater to unconventional career aspirations; however it will provide valuable tips for all. You might want to do something that is either completely new to reality or wish to follow a path that is both adventurous and unconventional. However, we have covered most of the conventional, traditional and upcoming career choices that one has at his/her disposal today within this country and also outside its borders. The main aim is to highlight your areas of strength and weaknesses to further develop and strengthen them for best career results.

While we aspire to provide you a complete, error-free report, being a technical product, please feel free to write to us at support@pexiscore.com in case you spot any errors or malfunctions or anything you find is not in sync. We shall rectify it without any further cost to you. Please feel free to reach out to us for anything else too! We are here to help.

BENEFITS OF CAREERGRAPH

By subscribing to this report, you get an automated registration at PexiScore.com where you shall have access to a host of features and job search.

You shall also have a free resume created for downloading. Keep updating your records at PexiScore.com to help us guide you on new job openings, career tools, learning and guidance on careers and jobs.

As you read through the content of the pages below, you shall find individualized description and interpretation of your basic interests, your choices and 'know yourself better' using psychometric assessments that you have undergone. The actual scores against the attributes are not displayed to eliminate the concern for the relative "goodness" or "poorness" of a given score. The graphs showcase 'relative' strengths and weaknesses found in you using our assessment techniques.

Secondly, while each graph and comprehension stands totally by itself in terms of its content and displayed message, the complete information becomes easy to understand and comprehend AT THE END, making it a constructive, actionable feedback for the candidate.

Some of the potential paragraphs and content outline 'Behavioral strengths and weaknesses' associated with your approach to situations. This is neither wrong nor right; it depends on the situation and showcases how you would deal with a particular problem, decision or effect most of the time.

They thus indicate your natural, effective behavior. However, these statements are non-judgmental but help you understand that being maximally productive is dependent on having certain basic approaches modified or improved to be a better professional in the first place. It also works like an "early indicator system" in identifying patterns in your behavior which might have not been noticed and you may want to improve further upon to climb the ladders of success in your respective fields and careers.

This PexiScore CareerGraph attempts to provide you feedback and be a guiding tool in your career aspirations. They also provide a foundation to develop and install higher teamwork and interpersonal capabilities for success at the workplace. This report does not intend to change but only validate what is already within you and how you can capitalize on your strengths to develop better career paths. We wish you success in your career aspirations!

Summary I'm looking for a career that can help me learn and grow as a professional while aiming new standards of professional and personal growth stories. In short, I'm trying to be nice about myself!

Many students are stuck between a career choice and a choice of their preference. This is more pronounced as we scale up the age ladder and as technological interventions bring forth newer career choices for all of us. This CareerGraph Report from Pexitics tries to understand you not only as a student of a subject matter, but also as a person and as one who exhibits strong interest and temperament for some particular career traits. So we consider this as a reflection of your persona and not just a report. At times you may not want to be embarrassed or the pressures of pursuing a particular choice of career may not be enjoyable. It is based on these issues that we suggest that the reading should also be personal and limited to only people who matter or are experts in this field; hence it is disclosed to you so that you can discuss it or ponder on it with your discretion and take action to further your career and personal ambitions in life.

Some of the career choices listed may surprise you completely, and these are choices that you opted for based on your sub-conscious mental framework at the time of taking the assessment. Hence we have also reflected upon using multiple options of education, interest, temperament & aptitude to tell you some of the best career choices that might suit you. Finally, we expect you to further reflect upon the report and read it multiple times to learn something new about yourself.

The report does not endorse that the career choices you have pre-determined are not a good fit for you. The report showcases a greater chance of success if the choices are aligned in your mind and heart.

If you were to ask friends and family about the career choices we suggest, you might find a lot of them agreeing that these careers choices perfectly reflect how they view and perceive you.

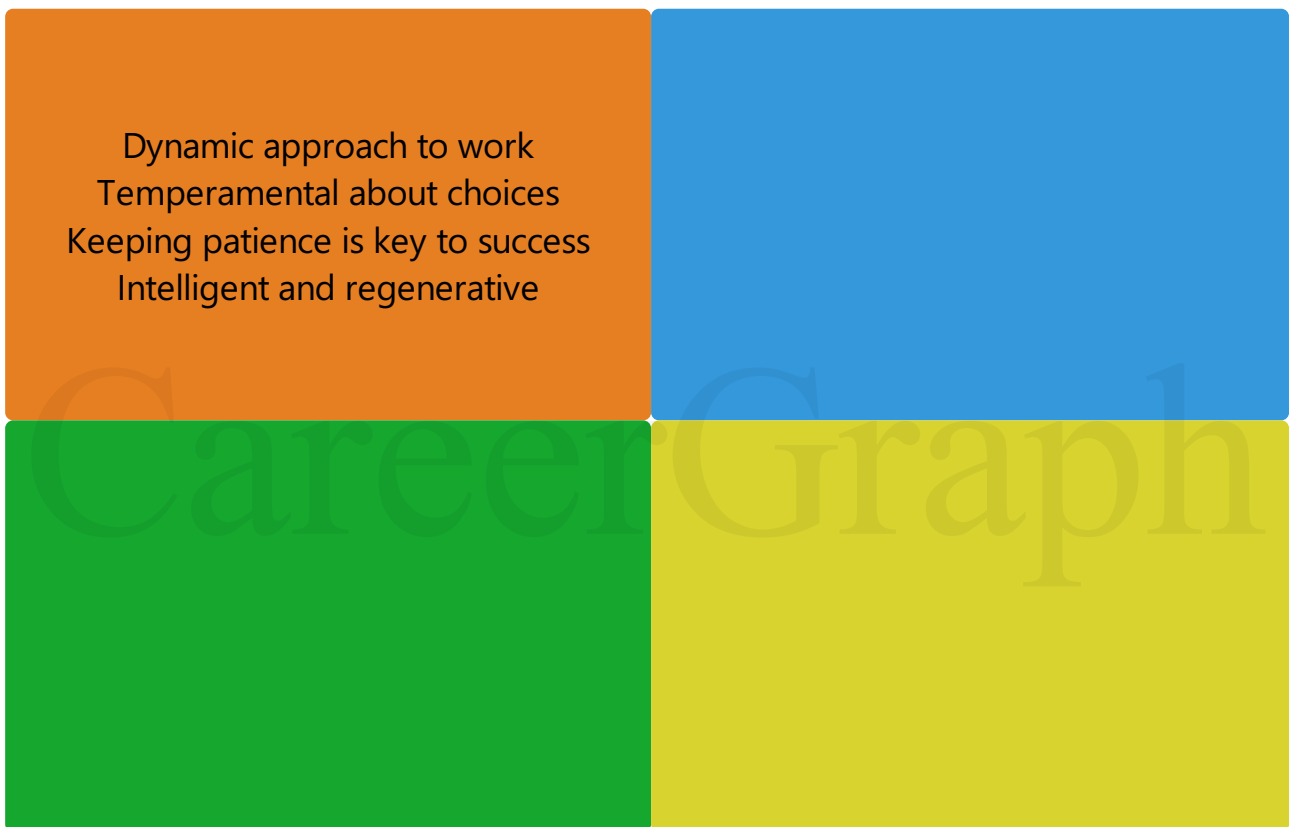

The final message we seek to send is that rather than dismissing the occupations we suggested in the pages below, you may want to look deeper and reflect. If they are already in line with your thoughts, you are truly lucky and if not, just remember that you have nothing to lose but to make a few changes to your goals and ambitions; you shall reach there sooner and also be a lot more happier later that you took those choices.

*"Two roads diverged in a wood, and I—
I took the one less traveled by,
And that has made all the difference."
~ Robert Frost*

TEMPERAMENT PROFILING

Temperament Profiling includes your natural instincts towards work environment, behavior approach towards people and work situations and particular tastes in industries. Please view this as an important part of your comfort based work environment profiling to help you choose careers that bear a mental match to your temperament. This also furthers your choice of day-to-day operations that you would find more comforting. The four colours denote four particular temperaments; we showcase the one you match. Read orange as warm; blue as cool; yellow as earthy and green as practical.

As you bring along a temperament of curiosity, multi-faceted talent and ambition, you are very a social person. Hence career options that do not provide a social outlet to your versatile and imaginative temperament may make you change careers at short notice. However, perseverance and patince is key to success in your career goals. Employers and careers that provide adaptability, balance, and flexibility would be most suited to your temperament.

"He who conquers himself is the mightiest warrior."

-Confucius (He was a Chinese teacher, editor, politician, and philosopher of the Spring and Autumn period of Chinese history.)

BEHAVIOR PROFILING

The Work Behavior Assessment is a proprietary questionnaire used to assess applicant behavior traits with the help of positive & negative questions through the Likert Scale timed assessment methodology. The questions are segmented into outcomes against attributes and are showcased in terms of Strengths and areas of improvement. The Work Behavior scale measures attributes more necessary in a job environment and focuses on traits that are key to working environments that exist today.

CareerGraph

INSIGHTS ABOUT YOURSELF:

You lean toward leadership roles. You are willing to take on challenges and are an extrovert. They can be aggressive as well.

You like to use your abstract or analytical skills to figure things out. You are "thinker" who strives to complete tasks and often prefers to do so independently.

You like to create things and you are imaginative.

You are often described as helpful, understanding, responsible, warm, cooperative, convincing, friendly, kind, generous, and patient.

"We must become the change we want to see."
-Mahatma Gandhi (He is known as the Father of the Nation - India)

Your Strengths

You seem confident in taking decisions even when you have to choose amongst multiple alternatives. That will help you succeed in the long term. Good going!! You have openness to innovation and creative ideas. Keep that up and it will lead to success in today's everchanging world. Adjusting well in new environments and participating actively in your forte. Keep meeting and greeting new people and places. You take active steps to visualise and redress issues in the long term. Finding more alternatives will reach you far in your career goals and ambitions. You are a very good team player and would be an asset to groups and teams. Good work !!

Areas of Improvement

Your ability to influence others and reach favourable agreement needs to be improved if you are seeking a job with client facing roles. You seem less confident in your approach towards tackling critical decisions. This needs to improve. You seem capable in negotiating and handling conflict. You need to build more on these strengths.

CareerGraph

The behavior assessment helps us showcase your core and secondary motivations at work. This can help you review your strength and organise your career aspirations towards job roles that are in sync with your behavior outcomes.

WHAT MOTIVATES YOU

This section observes your **Core** and **Secondary** motivations at work. You are expected to have more than one motivating factor/s, and thus **Core** denotes the higher propensity followed by the **Secondary** factors.

Core

Social Acceptance

You like work activities that assist others and promotes learning and personal development. You prefer to communicate more than to work with objects, machines, or data. Your preference is to teach, to give advice, to help, or otherwise be of service to people. You are suitable for roles in support functions.

Secondary

Creative/Independence

The candidate's interests lie in work activities that deal with the artistic side of things, such as forms, designs, and patterns. Likes self-expression in their work. Would prefer work settings where work can be done without following a clear set of rules.

CareerGraph

APTITUDE PROFILING

Aptitude profiling uses four key areas of applicant responses to provide insights into the English language, comprehension, numeracy, logical reasoning and situational judgment to showcase strengths and areas of improvement. These help assign weightages in providing more unique recommendations for career and industry choices. The report will also provide insights on which areas of work where the applicant can be highly successful if career aspirations are in line with the abilities and strengths enumerated in the report.

Your Score Benchmark

Numerical Ability

Verbal Communication

Comprehension & Proficiency

Situational Judgment

Logical Thinking

Your Competencies

You need to improve your capability in establishing facts & principles for efficient judgment when faced with large amount of facts. Do work on this. You are an average while executing and determining the optimum decision. Think more logically while faced with decision-making. You are proficient in comprehending fundamental arithmetics and applying numerical concepts. Seems like you enjoy numbers !! Good going. You are good in public speaking and confidently expresses your ideas among others. Way to go! You are quite proficient in English comprehension and dialect.

Areas of Improvement

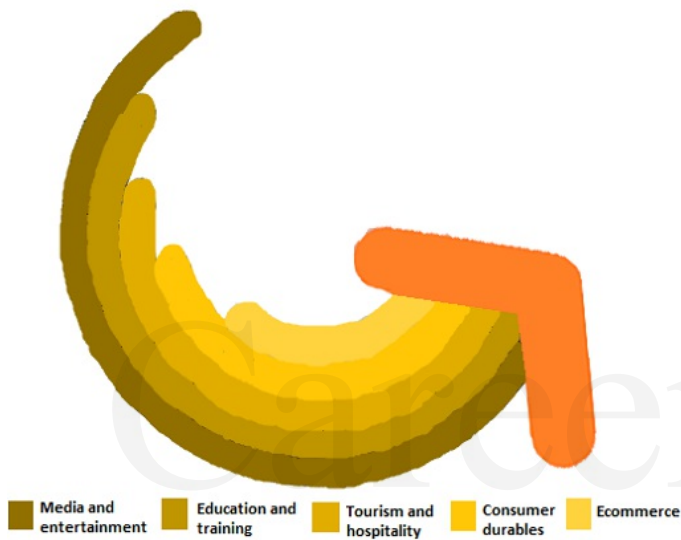

We are pleased that there is nothing much for you to comment in this aspect. Kudos!

INDUSTRY INTEREST PRFOILING

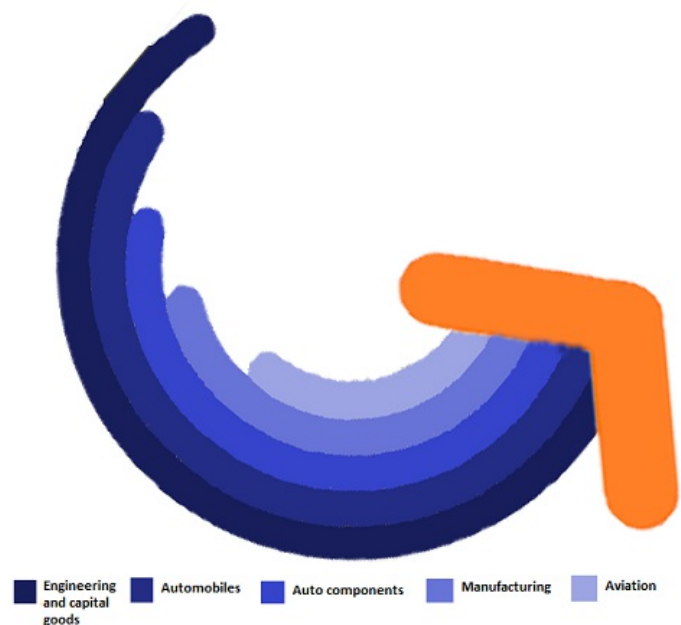

The Industry Interest Profiling reflects your interests in select industries where you would be most productive and summarises them in a scoring pattern. This does not include skills and abilities. The report points to potential industries that suit your interest and likeliness to continue in a longer horizon of time. The aim is to provide insights on select industries that could be a rewarding career option for you and one that addresses your value systems and mental approach of comfortability.

Please find below the top five industry clusters that suit your interest.

1. Art & Communication

Creating and/or expressing ideas or demonstrating talents through various media for entertainment, informational, or instructional purposes. Duties may include acting, dancing, singing, designing graphics, operating media equipment, translating text, writing literature, producing/directing movies or plays, public speaking, radio announcing, competing in sporting events, news reporting, among other specific functions within the media.

2. Engineering

Applying principles and technology of chemistry, physics, and other scientific disciplines into the planning, designing, and overseeing of physical systems and processes. Duties may include creating, testing, developing, and maintaining tools, machines, electrical equipment, buildings/structures, or other physical entities

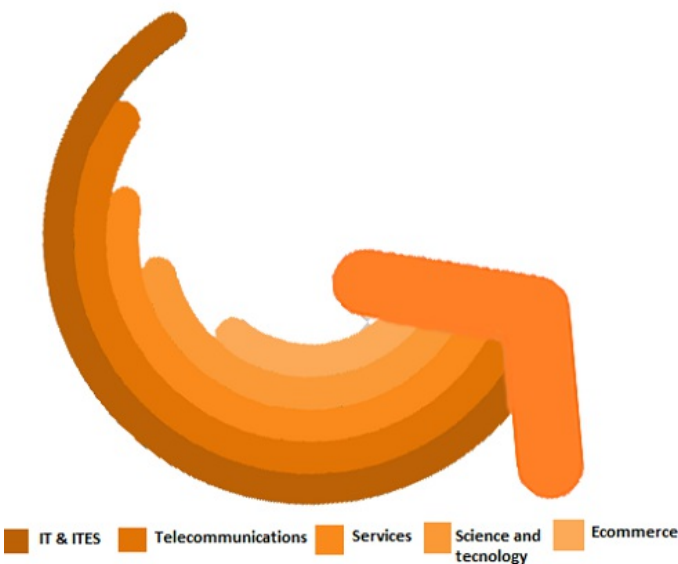

3. Manufacturing

Performing hands-on work functions related to the installation, maintenance, and repair of various machinery, systems, vehicles, and other serviceable equipment. Duties may include diagnosing, adjusting, servicing, and overhauling engines, telecommunications and/or security systems, heating, vacuuming, and air-conditioning units, and electronics. Producing, creating, and/or manufacturing a variety of products (e.g., food, lumber, electrical equipment, fabrics, metals, plastics, stones, fuel) through the operating of specialized tools and/or equipment.

CareerGraph

4. Technology

Designing, developing, and maintaining databases, software, hardware, networks, and other information/logic systems. Duties may include collecting/organizing data, computer programming, providing technical support, web design, and configuring communication systems, among other data-driven functions. Duties may include researching, collecting/analyzing qualitative and quantitative data, conducting experimental studies, devising methods to apply laws and theories to industry and other fields.

5. Business & Management

Planning, directing, and coordinating high-level activities within an organization. Duties may include managing personnel, creating budgets, developing and implementing strategies, creating organizational policies, and supervising company operations. These managerial functions are similar in nature across various industries and fields (e.g. engineering, sales, human resources, medical).

CareerGraph

"As human begins, our greatness lies not so much in being able to remake the world- that is the myth of the atomic age- as in being able to remake ourselves."
 -Mahatma Gandhi (He is known as the Father of the Nation - India)

We look at your Interest Inventory Assessment results and are noting down some of the Industries that are of intrinsic interest to you.

MEDIA AND ENTERTAINMENT

The Indian media industry has tremendous scope for growth in all the segments due to rising incomes and evolving lifestyles. Media is consumed by audience across demographics and various avenues such as television, films, out of home (OOH), radio, animation and visual effect (VFX), music, gaming, digital advertising, and print.

The Media & Entertainment industry is anticipated to grow at a Compound Annual Growth Rate (CAGR) of 13.9 per cent during 2016-21 to reach US\$ 37.55 billion. The Indian advertising industry is expected to grow at a CAGR of 15.31 per cent during 2016-21.

EDUCATION AND TRAINING

India's education sector offers a great opportunity with approximately 29 per cent of India's population being between the age group of 0-14 years. The schooling segment in India is anticipated to be around US\$ 144 billion by 2020 from an estimated US\$ 95.8 billion in 2015. India's higher education segment is the largest in the world, and is expected to increase to US\$ 37.8 billion by 2020. The education industry in India is estimated to reach US\$ 144 billion by 2020 from US\$ 97.8 billion in 2016

India has one of the largest networks of higher education institutions in the world with 822 universities and 42,047 colleges. It is also the third largest in terms of education enrolment with over 21.5 million enrolments per year. The private education sector which was valued at an estimated US\$ 96 billion in 2015 is estimated to reach US\$ 133 billion by 2020

TOURISM AND HOSPITALITY

India is a large market for travel and tourism. It offers a diverse portfolio of niche tourism products - cruises, adventure, medical, wellness, sports, MICE, eco-tourism, film, rural and religious tourism. India has been recognised as a destination for spiritual tourism for domestic and international tourists. Total contribution by travel and tourism sector to India's GDP is expected to increase from US\$ 136.3 billion in 2015 to US\$ 275.2 billion in 2025.

The launch of several branding and marketing initiatives by the Government of India such as 'Incredible India!' and 'Athiti Devo Bhava' has provided a focused impetus to growth. The Indian government has also released a fresh category of visa - the medical visa or M visa, to encourage medical tourism in the country.

ENGINEERING AND CAPITAL GOODS

Indian engineering sector is divided into two major segments - heavy engineering and light engineering. The capital goods and engineering turnover in India is expected to have reached US\$ 125.4 billion by FY 2016-17. Likewise, Electrical equipment market size is expected to reach US\$ 100 billion by FY 2021-22. Comparative advantage vis-à-vis peers in terms of manufacturing costs, market knowledge, technology and creativity has been a driving force for engineering exports from India. The construction equipment market in India is expected to reach 131,000 units by 2022.

The approval of significant number of special economic zones (SEZs) across the country and the development of the Delhi Mumbai Industrial Corridor (DMIC) across seven states is expected to further bolster the engineering sector. With 100 per cent Foreign Direct Investment (FDI) allowed through the automatic route, and initiatives like 'Make in India', major international players have entered the Indian engineering sector due to significant growth opportunities available

CONSUMER DURABLES

The consumer durables market is expected to reach US\$ 20.6 billion by 2020. Urban markets account for the major share (65 per cent) of total revenues in the consumer durables sector in India.

Consumer electronics exports from India reached US\$ 186.7 million during April-September 2017. Also demand for durables like refrigerators as well as consumer electronic goods are likely to witness growing demand in the coming years in the rural markets as the government plans to invest significantly in rural electrification.

PREFERRED INDUSTRY Vs RECOMMENDED INDUSTRY

RECOMMENDED INDUSTRY

YOUR PREFERRED INDUSTRY

None of your preferred industry is among the industry we recommend.

ACADEMIC PROFILING

Academic profiling takes into account the education and job roles that are more suited to the educational profile required for the job. As new career options emerge, we believe this can help aspirants to move into newer territories of learning and earning using faculties that have been trained over the years in subjects of importance. While the importance of further learning is always encouraged, there are job roles which can fit based on the current education levels which we showcase in this section.

The education that we have received till now becomes a great enabler for our first jobs. The job world looks at our education as a reflection of our interests .

However, the number of job roles that we can choose from has drastically increased . Some obvious roles are education agnostic - especially creative jobs

Government jobs are also often a viable option for people from most streams of study . If you are looking at government jobs alongside your graduation, you would most likely be eligible for clerical / technician positions. If you are looking at Government jobs after post graduation, you will mostly be eligible for Officer level jobs.

Setting up your own business or joining a family business is also a viable option where your education may not be of primary importance

CareerGraph

"The gem cannot be polished without friction nor man without trials."

-Confucius (He was a Chinese teacher, editor, politician, and philosopher of the Spring and Autumn period of Chinese history.)

A detailed study of your education shows that you are eligible for many job roles.

Job roles as per your Education

You are pursuing an unconventional field of study. Please mail our counsellor at score@pexitics.com if you want to discuss possible career paths . Listed below are some generic options
